INSTITUTE.

*** CONSULTATION IN THE CITY OR BY LETTER, FREE.

*** CURES GUARANTEED OR NO PAY REQUIRED.

*** IN ANY CASES WHERE CONFIDENCE IS REQUIRED THE UTMOST SECRECY MAINTAINED.

The above rules, established by Dr. J. C. Young in 1850, and which has done so much to secure the reputation of this Institute, are still adhered to, affording those in need of medical aid, the certainty of cure and the utmost confidence.

There is nothing of so great importance to the sick as to know where to find a physician whose skill and humanity give assurance of proper and delicate treatment. The Doctor would respectfully call the attention of those of both sexes who are suffering or in trouble to the invariable success that has marked the career of the Institute in the seventeen years of its existence.

It is unnecessary in this connection to enumerate all the complaints treated at the Institute, but the Doctor feels it his duty to call especial attention to that terrible scourge,

SEMINAL WEAKNESS.

That is sapping with its insidiousness the very life of its victims; in the treatment and cure of which the Institute has earned so enviable a reputation.

READ! READ

I am aware that by dwelling upon a subject of this nature the decay of manly vigor in one's self is the first step to offer, the ignorant may suppose my time and attention to point out to those who suffer language cannot describe the frightful effects of this terrible disease of Seminal Weakness is, as none but the practical specialist who devotes his time to this class of diseases can be detected by the most learned by asking the following symptoms: Dimness of the eyes, pain in the back and limbs, languishing appearance of the countenance, nervousness, trembling, weakness of the joints, confusion of ideas, timidity, dreadful apprehensions, loss of memory, aversion to society, blotches on the face, eruptions on the body, etc. If the above symptoms are permitted to progress, they will surely undermine the constitution, destroy the vital powers, and render marriage impossible, and finally end in premature decay.

YOUNG MEN, if you have any of the various symptoms mentioned above, pause before you proceed further. The destruction of your health and happiness may be the result. You may feel strong now, but if you have the seeds of weakness lying dormant within you, they will surely develop themselves when you are about to enter the marriage state, and you will find that the happiness you had anticipated will be turned into misery. It is not to be supposed that a man can have a shock to the nervous system, and the vital powers undermined for years, without being affected in some way. Two Fatal Mistakes

In August, 1864 the National Democratic Convention presided over by Horatio Seymour declared the war a failure and demanded its cessation That declaration was not based on actual existing facts showing that the Government was unable to put down the rebellion no such facts existed Even when though there had been earlier in the year a few months of gloom the prospects were visibly brightening Gen Grant was at that very moment confronting Lee's army near the James river and gradually developing those movements which finally culminated in Lee's surrender and the collapse of the Confederacy Gen Sherman had already begun that movement into the bowels of the Confederacy which has become immortalized both in history and song as Sherman's march to the sea Admiral Farragut had already captured all the defences at Mobile Bay The Mississippi valley was practically in the possession of the Union armies and the only war then carried on in the West was an irregular one by bands of thieving guerrillas In every direction the signs were hopeful and presaging an early termination of the struggle by the defeat and dispersion of the insurgents.

The declaration, then, of the Democratic Convention was not sustained by the existing facts and was not the expression of reason The explanation of the utterance must be sought in another direction An attempt had been made shortly before by leading Republicans with the assent of President Lincoln, to agree with the rebel leaders upon the basis of peace It had signally failed, Jeff Davis declaring that he would accept no terms short of independence or extermination The Democratic leaders who assembled at Chicago thought they saw in this attempt a disposition in the Republican party to weaken they thought the war spirit was wearing out and that there was favorable time to manifest openly their sympathy with the rebels Here in was the great mistake of 1864 The people who were as loyal as ever and as firmly determined to wipe out the rebellion, understood the Democratic platform to be an expression of sympathy with the rebels, and they at once began a fresh rally which ended in the tremendous rebuke to Democracy, embodied in the result of the November election The Democratic party had never committed a more stupendous blunder than when it published as assent, in the platform of 1864, to the independence of the insurgent States It never had so misjudged the patriotism and fidelity of the people.

As sympathy with the rebels dictated the platform in 1864, so hatred of the loyal people who subsequently beat the rebels in the field and the rebel allies at the polls of the loyal States, dictated the platform in 1868 It not only proposes to repudiate a portion of the national debt, justly due to the men who first came to the rescue of the Government with their gold, but it proposes to utterly throw away the material results of the victory gained by loyalty over treason. A few gains to the Democracy in States where local issues have given them advantage at the polls, have evidently led the Democratic leaders to the opinion that the people are changing on the great issue which has been constantly living one since 1860. They evidently think the time has come when they can safely begin the work of repairing the damage done to their rebel friends by the Union armies, and of reinstating the conditions of politics which existed prior to 1861 As in 1864 they declared the war a failure, they now declare reconstruction a failure. As in 1864 they were anxious to stop the war, even though it should be at the expense of the independence of the Confederacy, so now they desire to render the war fruitless even though military force, revolution and anarchy be the necessary consequence But as in 1864, they mistook the fidelity and patriotism of the people, so in 1868 they have utterly misjudged the common sense and the honesty of the people. Then they thought to win a victory for the rebels through the fears and discontentment of the people, now they think to win it through the jugglery of double faced platform and the stupidity of the people. The Democracy never made two greater blunders They were crushingly defeated in 1864, and they will be disgracefully defeated in 1868. In 1864, the people did not believe the war a failure and they went on and prosecuted it to a successful issue In 1868, they are quite as little prepared to throw away the fruits of their victory and they will prosecute reconstruction to a successful issue.

The San Francisco *Examiner* says "We tell the mongrel screamers that we are bound to have revolution That is not news The Democratic platform says, substantially as much Gen Blair says as much and in quite as plain language as the *Examiner's* Gov Seymour by endorsing the platform says as much And they all got the start of you, Mr *Examiner* Wade Hampton, Gen Forrest and all the ex-rebels say as much The determination to have another revolution and a little more blood-letting is so general among the Democracy that even away up here in Oregon, the Democratic newspapers make haste to announce that "the Democratic party is pledged to revolution, and that Blair's bloody letter "will receive the endorsement of every genuine Democratic voter in the Union. There can be no doubt of the intention of the Democrats to have revolution—provided they can elect Seymour and Blair But there is the rub Gen Grant will be the next President and he says, "Let us have peace"

A Washington correspondent writes Chief Justice Chase was present on Thursday evening at a dinner given by the British Minister to Reverdy Johnson, and he remarked that it looked as though Grant would be elected President"

In view of the financial policy approved by Seymour and the revolutionary policy avowed by Blair, the imitials of the firm, S & B., should stand for Shinplasters & Blood

Seymour is the first civilian ever nominated for the Presidency who has not had experience as a Congressman

Going Back on the Issue

The whole country recognizes the principle presented by the Democratic party as peace or war." Gen Blair furnished the key to the platform in his letter of last July He said, "The entire Republican press interprets the issue presented to be "peace or war" and with that bloody letter staring them in the face the Democrats have not the hardihood to say that the party platform was not the true one Their leading papers avow the object of the platform use of the election of Seymour, to treat the laws of Congress as a nullity and to trample them under foot and to turn upon the State governments of the reconstructed States The infamy of the proposition is not less than that of the original secession conspiracy It is startling and horrid The *Herald* is evidently hinting that the people so regard it A few days ago that paper discussing Blair's letter said

"That man is ignorant of the traditions and the historic faith of the Democratic party who believes it will, for the sake of peace, compromise temporize with a policy established by perjury and treason The Democratic party is pledged to revolution—to a complete overthrow of the so called reconstruction acts," etc

Previously in the same article referring to the fact that the Chicago *Tribune* declares Blair's letter revolutionary, the *Herald* said

"We take no exceptions to the term A counter revolution is the only remedy against a revolution which has fastened upon the people four fifths of the country the most odious and onerous despotism ever inflicted upon any people of the Caucasian race within the last three centuries

That was said when the editor of the *Herald* thought there could be no doubt of the election of Seymour on any sort of political declaration But the editor evidently getting his opinion in that respect somewhat reformed He evidently begins to doubt whether the purpose of revolution has not been avowed too openly and too soon Yesterday the *Herald* contained an explanatory article from which we quote the following

Frank Blair has declared and the Democratic platform repeats the declaration, that it is the unalterable purpose of the Democratic party to restore the Union and the paramount authority of the Constitution" This policy necessitates the overthrow of the Radical policy of reconstruction which is confessedly "outside the Constitution and all the acts of usurpation fraud and despotism connected therewith It rest res white supremacy, the equality of the States, the civil rights of the people, and makes the Constitution the rule alike to the government and people the "paramount law of the land" The Radical leaders raise the cry and the Radical press throughout the country take up the refrain that this is revolutionary, "that it presents the issue peace or war." Very well, who makes this issue? Whose fault is it, if this is the issue? The Democrats present their policy to the people fairly as they all admit, they only appeal to the ballot-box to decide the issue.

So the appeal is only to the ballot-box? That is not the way Blair put it He did not say that the reconstruction acts are to be repealed through the legitimate use of the ballot box Nor did he say that the question of disposing of the "carpet-bag" state governments is to be submitted to the people at the ballot-box. Blair's language was

"There is but one way to restore the Government and the constitution, and that is for the President elect to declare the reconstruction acts null and void, compel the army to undo its usurpations at the south, disperse the carpet bag state governments, allow the white people to reorganize their governments and elect Senators and Representatives The House of Representatives will contain a majority of Democrats from the north, and they will admit the representatives elected by the white people of the South, and with the co operation of the President it will not be difficult to compel the Senate to submit once more to the obligations of the Constitution * * * We must restore the constitution before we can restore the finances, and to this we must have a President who will execute the will of the people by trampling into dust the usurpations of Congress, known as the Reconstruction Acts"

This does not look like an appeal to the ballot box. It is a proposition that the President shall usurp the power of the Judicial Department to declare the laws of Congress null and void, that he shall use the military to forcibly disperse lawful state governments, that the Democrats in the House of Representatives, backed by the President, will judge of the qualifications of Representatives and Senators and compel the senate to submit The proposition, if carried out, would be a revolution and destruction of the entire organization of the government and the President would be nothing less than an absolute Dictator

The New Excise Act.

We have received the entire amended or rather new tax bill as it passed, but it is too long for publication. It contains 108 sections and would fill more than two pages of the weekly OREGONIAN, in small type The following is a brief synopsis of the act

The first section imposes a tax of 50 cents upon every proof gallon of distilled spirits, to be paid by the distillers before removal from the distillery, all fractional parts of a gallon to be taxed as a whole gallon, and the tax to be a first lien on the spirits, the distillery, the apparatus and the land on which the distillery is situated The forty eight succeeding sections prescribe proper modes of carrying on the business of distilling warehousing and rectifying

The act provides for the appointment of twenty five Supervisors of Internal Revenue, each to receive $3 000 per annum It authorizes the employment of detectives, storekeepers and gaugers All the distilled spirits now in bonded warehouses must be withdrawn and the tax paid within nine months, and those remaining longer in bond are forfeited to the United States

The following special taxes are imposed Distillers producing 100 barrels of spirits, of 40 proof gallons to the barrel, annually, are to pay $400, and $4 upon every additional barrel The same tax is levied on all spirits now in bonded warehouses Rectifiers of 200 barrels, of 40 proof gallons to the barrel, are to pay a special tax of $200, and 50 cents upon every additional barrel Compounders of liquors pay a special tax of $25 retail dealers, $25, wholesale dealers whose sales do not exceed $2 000 per annum $100, and $10 additional for each $1,000 of sales

A large proportion of the bill is devoted to new rules and regulations concerning the collection of the tax on tobacco The taxes imposed are, upon snuff, 32 cents per pound chewing tobacco, 32 cents, smoking tobacco, 16 cents The following special taxes are imposed $5 upon retail dealers whose annual sales do not exceed $1,000, and $2 for each additional $1 000 dealers in leaf tobacco whose annual sales do not exceed $10 000 to pay a tax of $25 and $2 for each additional $1 000 and manufacturers a tax of $10 each

The following testimony concerning the bloated boondholder's candidate, Seymour, is from Brick Pomeroy, a sufficient authority, all must believe, for genuine Democrats everywhere Just before the New York Convention, Brick said

We notice that Gov Seymour made a speech in New York City on the 25th June in which, the telegraph says, he "proceeded to reiterate his views formerly expressed on the financial question" What these views are, as contained in his Albany speech our readers are fully informed * * * He has no courage to grapple with the question like a statesman and a patriot * * * The bondholders have got him in their toils, and are using him to uphold their interests

Mr Bowles of the Springfield *Republican*, in speaking of the magnanimity of the Southern members of the Democratic Convention in going for F P. Blair, says that "Wade Hampton, whose horses he horsed and whose liquors he drank, and Gen Forrest, were among the speakers for him

The Rochester *Democrat*, with much pithiness, announces the Democratic nominations "Seymour and Blair and whisky"

Tuesday Wm Pinckney Whyte was sworn in as the successor of Reverdy Johnson in the Senate The funding bill was taken up and passed till Friday when it will be taken up and passed down to the House The bill provides for issuing the three per cents, paid in gold for the five twenties, and also for issuing seven thirties, payable in currency, in place of such part of the 5 20s as may not be funded The House will not concur in the Senate amendments to the tax bill, but will insist upon its own amendments and ask a committee of conference on the bill The House disagreed to all the Senate amendments except the one relating to the collection of taxes in the South The Senate amendments to the bill were concurred in by the House and the bill passed

On Thursday the Senate passed a bill repealing the law of the United States relating to the issue of seamen's protections, over the signature of Hunter Secretary of the Treasury, and to the Colonies The Senate passed the Indian appropriation bill and the resolution relative to the collection of taxes in the South The Ways and Means committee reported the Senate funding bill to the House with thirteen amendments

Yesterday the Senate passed the Alaska appropriation bill with an amendment striking out the provision inserted by the House, securing the right to participate in seal fishing treaties It was laid before the Senate this week The treaty provides for the opening of the Chilcoe ports and enters to the commerce of the United States and for the protection of Americans residing in China and grants like privileges to Chinese in the United States

IMMIGRATION—MR ADAMS

W L Adams Esq, at present stopping in Washington, intends taking a tour through the New England and Western States, for the purpose of lecturing on the climate, resources &c of Oregon with a view of inducing immigration to the Pacific coast If the people of Oregon, who are interested in the matter will send sufficient means to pay his traveling expenses, he says he will cheerfully devote his time and labor to the cause Oregon is almost as large as Spain with her 14 000,000 inhabitants The Willamette valley alone is capable of supporting a population of 1 000 000, and yet the whole State does not contain more people than this city A large accession to the population of Oregon is indispensable to the prosperity of the State and immigration should be encouraged in every way possible

IRREGULARITIES OF THE MAILS

The mails between here and Oregon are sadly out of joint I have sent letters dated twenty days and one month, apart, which reached the city at the same week The Oregon newspapers of June 15th came several days ago, and yesterday the back numbers of the same papers of June 6th and May 30th and their dates disappearance were

HOT WEATHER

The weather has been intensely hot during the past two or three weeks The thermometer has ranged from 90° to 104° and a few persons have died from effects of the excessive heat In Baltimore, New York, Boston and as far north as Montreal, the thermometer has been up to 100° and great numbers in each of those cities have died from sun stroke In New York as high as 100 cases of sunstroke have occurred in a single day a large proportion of them resulting in instant death On Thursday 50 head of beef cattle died in one pen in Baltimore from the effects of the heat

AN OREGON FRIGATE.

I. Hinton Esq., of Eugene City one of the Grand Delegates to the National Democratic Convention, and representative of the Grand Lodge I. O. O. F. of Oregon to the Grand Lodge of the United States, which meets in Baltimore, was here during the week on his way to visit friends in Illinois. Mr. Hinton's nomination of Blair was very unpalatable, but I don't whether he has said as much in the traveling correspondence of the *Oregon Herald*

A WAY RASCALS ARE MADE—LIEUTENANT HALLERAN

Lieutenant Halleran formerly one of the pursuers of Col Dallas' *Wanderer*, returned to his post in Washington a few days ago after having been stationed a brief period in South Carolina, and is greatly disgusted with the conduct of the unfortunate rebels and thinks the military duties which the Government bowls so much about are all a myth Because the "despotism is all on the side of the rebels, and affirms that among Moses and North people are everywhere in arms and treasured, and persecuted to such extremely toxic as to render it impossible to live among the rebels Halleran says Northerners are at all times hated The assassination, and thinks that military authority ought to be enforced with more severity and continued twenty years or so Halleran believes these views It will be remembered that Lieut Halleran was a conspicuous and active participant in the affair through Nassau Sound Both from the experience of nearly every army officer and from common sense and Senator Wade, Gen McDowell, and many others of note think that a military rule is worth to the country more than a back rule

RIVER IMPROVEMENT The fear at the mouth of the Willamette very wisely gives the foundation on which business men in regard to our future based their predictions of an ultimate failure to the jetty will result to rank as a great commercial by the frequent obstructions and detention of vessels lying between the city and the Bay Francisco was a source of great annoyance to shippers and at all new liberal men need to be any reason to believe that the bar would be a permanent check to our united extensive commerce Seeing this the enterprising of our people was aroused to the necessity of devising some means by which the channel could be made deeper, the depths in regard to our future dissipated and the rock projections of the Willamette flow unobstructed to the open sea

By the judicious expenditure of $60 000 it was thought the difficulties in the way of the largest sized ships could be removed Congress come to the relief of the city with an appropriation of $25 000 which in addition to the amount raised by tax and loans, was to be applied to removing of the actions to navigation at the mouth of the Willamette river. This amount being ready, a certain Mr Covington was sent from Washington City to [illegible] the work although many men were already here who were doubtless as competent as he to accomplish it. He was paid out of the appropriation an amount exceeding $4 000 to come to the coast remain here a few days, make a trip to Victoria and return home without materially advancing the work at all

Strenuous efforts were made at Washington to stop appropriation of the pay of this post, but he finally received a regular voucher and per diem out of the above mentioned appropriation and in direct contravention of the rights of Oregon in the matter This is the manner in which the removal of these obstructions has been managed and it is not a subject of astonishment that the progress of the work has been so slow During the present season of the enterprise is properly conducted we may reasonably expect to see some good results from the outlay of money which has been made for this purpose

We learn that it is the intention to proceed with the dredging immediately when the water reaches a sufficiently low stage Under the Superintendence of Lieut Gillmore, we understand, is to be put in charge of the work, we trust the city of Portland will ere long begin to reap some advantage from the expenditure she has so willingly borne by her people in the accomplishment of this important measure.

PROPOSED GOOD ARRANGEMENT.—No previous [illegible] has witnessed so many and such fine improvements in Portland as have been made during the present summer We have already noticed from time to time the numerous fine brick buildings being erected for mercantile and other purposes also the two large new mills built by Hayden Smith & Co and Estes & Simeon In addition to what that in all portions of the city numerous dwelling houses are going up among them many of a superior character which will give to and the appearance of a first class city in point of architectural beauty We might mention several new buildings now in the course of construction which would be a credit to places making much greater pretensions than our city One thing evinced by the character of the improvements made in our midst is that men of capital and men whose foresight enable them to judge of the future with certain prescient and can not point out, have full confidence in the continued progress of our city in the march of improvement These men see the chances for the profitable employment of money, in building up our city and thereby reaping its rewards of Oregon and hitherto they have not been slack in investing in the probable fine of wealth derived from the [illegible] prosperity of Portland Only old enough to give to be [illegible] as a city with a population of about 7 000 souls our commercial relations with all the varied interests of a people fully established, and show that we are backed up by those advantages [illegible] will ultimately make us a great and populous city

DEMOCRATIC MUSIC.—The music to which the Democracy marched on Saturday evening was Dixie's Land Star Spangled Banner Maryland, my Maryland Hail Columbia Jamais la Militaire (meaning the rebels) Le Pas Pouf, Je suis un [illegible] (meaning not Hancock but General Blair) Oh! Lettre Adorer (meaning Frank Blair letter), Dites Lui (meaning tell Chase how it happened), "Veuve la Sabre" (meaning the sword of R E Lee, who wants a new one) The mingling of the rebel airs with the glorious strains of the "Star Sangled Banner and Hail Columbia was intended as a compliment to Governor Swann chief of the rebel army of Maryland who honored our city by stopping over no train to join in the jubilations of the friends of my friend Governor Seymour of New York (This silly gentleman who thinks he will some day be President of the United States but unfortunately for him a great many people don't think he ever will) Governor Swann would doubtless have preferred Dixie and Maryland without the Star Spangled Banner and Hail Columbia but the more cautious of the Democrats affected a compromise by omitting Yankee Doodle and giving "The Bonnie Blue Flag —*Philadelphia Press 12th*

The Sacramento *Record* says The Democrats at San Francisco are carrying out practically the apothegm that it 'takes a thief to catch a thief One of the newly appointed policemen has served six months in the County Jail for shanghaiing sailors Another was fined $100 a while ago for obtaining money by false pretenses

M Minnville Manufacturing Company

[illegible] agreed [illegible] surveys [illegible] [illegible] of was for the purpose of ascertaining the practicability [illegible] proposed M Minnville with Water [illegible]

To the Corporate [illegible] M Minn the Ditch and Manufacturing Company

GENTLEMEN — Having been employed [illegible] the practicability of bringing water [illegible] account of the water of the Yamhill river into Mc Minnville [illegible] has [illegible] with a view to establish the fact [illegible] I find that the said undertaking is entirely practicable and beg leave to make the following report

In company with Mr W T Newby as [illegible] assistants we proceeded to the Old Indian cross the Yamhill near Falkner's Meeting House [illegible] examination and consultation we concluded [illegible] among the ground further up the river. At [illegible] near the Old Camp Ground and nearly [illegible] the dividing line between the lands of Dr Cozine and Mr Bible we found a very good location for a dam, and offering superior facilities for bringing the water out to any other place that we had seen. We found the water about four feet above the ordinary summer stage the bank on the north side is as good as could be desired the opposite bank will overflow at a high stage of water but affords sufficient bank for the protection of a dam with ordinary protection. We proceeded to level the surface of the existing stage of water all [illegible] that a dam of eight feet would furnish the [illegible] with a sufficient supply of water

The size of the Ditch for the estimate is 6 feet on bottom with slopes of banks at an angle of 75 — that is the standard should be where the Ditch was 5 feet deep the top should be 8 feet wide, all the rest in due proportion The grade adopted was 1 6 feet per mile

The first Division embraces the 10 65 chains already described

The 2d Division commences 10 65 ch from initial point and extends to a small creek, distance 40 50 ch, average depth of Ditch, 7 45 feet and contains 5520 5 cubic yards of earth

The third Division extends along the north side of the county road to a point near Falkner's building, distance 84 ch, average depth 1 09 feet containing 6694 9 cubic yards

The 4th Division extends to low land near the Meeting House, distance, 34 14 ch average depth 2 5 2 feet containing 1240 0 cubic yards

The 5th Division includes the low land the grade on line would bring the level of the bottom of the Ditch above the surface of the ground distance 15 26 ch, average hight, 2 0 5 feet a flume of 460 feet in required, the bottom to be embanked, and if of this can be avoided by keeping nearer the river where the land is higher.

The 6th Division extends 7 35 ch west of the Old Ford, where we found 12 56 feet below the bottom of the Ditch. The length of this Division is 60 50 ch, and contains 6 80 feet, containing 7437 2 cubic yards. The Ditch passes along on the side of a steep hill, on the north side of the road The material of the bank appears to be shale and may be found practicable for a Ditch the whole distance It has been suggested, however, to have a flume of 495 feet at the steepest point. A trial will best determine which is the more durable, as well as the most economical. This Division terminates opposite Tom [illegible]'s Tan Yard.

The 7th Division; the line of Ditch taken the bank on the brook between the high and the low land, distance 3 94 ch, average depth, 1 35 ft containing 8546 1 cubic yards This bank is uniform on its surface, and the cross grade averages about 20°. A very natural route for a ditch This Division terminates nearly opposite Toney's

The 8th Division extends along the extension of the same bank to Jacob Hampton's, distance 2 96 ch, average depth, 5.00 feet containing 17 24 4 cubic yards. In order to expedite the surveys we leveled across the prairie to near the termination of this Division, but measured along the line of Ditch The 9-mile stake was set at a point on the line where the river approaches the up lands above Gaunt's, at about 40 ch. From and below the 6-mile stake the river approaches near the high lands again.

The 9th Division includes only 3 38 ch, average depth 3.45 ft., containing 209.5 cubic yards, and extends to the 9 inch near Hampton's dwelling house with creek ten links wide At this point a flume is required, 132 feet in length, hight of flume above banks of creek 9.65 feet; good banks on both sides

The 10th Division commences at south end of flume, thence across Hampton's land, to and along near the east line of Mosley's land, containing a northerly course to within 41; 71 ch of a point (sta. 52) at [illegible] Deer Creek, distance 100 50 ch, average depth 5 08 ft., containing 9047.9 cubic yards The 11th section of this Division can be [illegible] by banking further to the west, then crossing our Dist [illegible] ring each, the flume will be short [illegible] 1 feet. The cost [illegible] south the level of the bottom of the Ditch at the surface of the ground The upper high bank on the south side of Deer Creek [illegible] 65 31 ch, from the termination of this Division, requiring a flume of 1,400 feet in length; hight of flume from upper south bank 14 91 feet, distance across to stake on opposite bank (allowing 5 ft. ditch), distance 10 01 ch. 661.8 feet). Difference of level from opposite south bank to stake is 7.55 feet, which being [illegible] (depth of ditch) 4 85 feet; deducting the grade on 10 01 ch 0 10 will give 10.43 feet, this added to the height of the flume on upper [illegible] 14 01 ft. will give 24.36 feet fall The height of the flume from the natural bank of Deer Creek is 27 73 feet Here we come to a point of much importance We have a perpendicular fall of 24.36 feet to spare, capable of propelling powerful machinery in passing from the upper to the lower flumes.

We will take into consideration that this [illegible] is in the midst of a large agricultural district, where a flouring mill is much needed and where it would be impossible to obtain a water power with similar advantages, its value can hardly be overestimated it is no exaggeration to say that this [illegible] is worth one-third of the cost of constructing the entire "Ditch."

The 11th Division commences at the north bank of Deer Creek (in 3 ft. ditch)—distance 237 50 ch at stake 10th, 5 15 feet, containing 21672 8 cubic [illegible] along the boundary line between Darby and Heath's, Jr's lands, to near west boundary of D. Holman's land, thence through Hol. [illegible] and [illegible]ce, to Knight's land, thence [illegible]ly to Jeffers Miller's land, to John Miller's [illegible] where we set the 12 mile stake, the terminus of this Division.

The 12th Division [illegible] 12 mile stake and [illegible] 36 ch. of high land, before we reach the [illegible] May's school house, average depth [illegible] containing 5470 cubic yards There is on C. D. [illegible] 236 ch of low land, then commences a [illegible] of 668 ft. in length, hight in center 6 [illegible]

The 13th Div[illegible] ce at end of flume and [illegible] at 14-mile stake in Stagg's field, thence [illegible] 138.00 ch., depth 4.53 ft., containing 8305 cubic yards. This line passes through May's field and [illegible] to the county road below May's buildings in the direction of Crawford's into Stagg's field

The 14th Division commences here and extends to the 16 mile stake, excluding four ch., of flume and [illegible] Rodgers' swale, the line recrosses the county road, after passing the swale it bears to the right of the old school house, through the original land [illegible] of [illegible], recrossing the county road [illegible], and entering into W. C. Hembree's land, thence into Cozine's land thence into C. Chandler's land, where we set the 15-mile stake, this [illegible] 458 ch., depth, 5.74 ft., containing 10296 cubic yards

The 15th Division extends to the terminus of the survey The first 32.39 ch is shallow digging the balance 19 405 ch., (1,281 feet,) requiring a [illegible] crossing Cozine's Creek at the point of [illegible], and [illegible] the Grave Yard in W T Newby's land On south high bank of creek at stake near large fir tree the bottom of the flume is 14 10 ft. high; the course across to terminus 7 48 ch (491 68 ft.) thence on oak tree 16 inches in diameter is 1.27 ft. above the bottom of the flume difference of level from bottom of flume to natural bank of Cozine's Creek is 56 76 ft., distance from 15 mile stake to terminus is 52 ch making the distance of the entire line 16 miles and 32 chains

RATHER GRAPHIC.—The Washington correspondence of the Eugene *Journal*, contains the following

"Blair's letter to the Convention in which he advocates a resort to war and revolution against makes him the most unavailable man that could have possibly been selected, and leading Democrats, in and out of Congress, swear that he was put on the ticket for no other purpose than to kill it The New York Central Chase Association composed of "conservative" Democrats and Republicans, held a "ratification meeting' on the night of the nomination, and resolved that, although they had been opposed to Republicanism and in favor of Democracy, the adoption of the platform and announcement of the candidates had opened their eyes and changed their minds, and they would therefore vote for Grant and Colfax The *Tribune* thinks this Association represents hundreds of thousands of the drifting and undecided vote in the United States I do not believe that the Democrats could have nominated a ticket that would be able to defeat Grant and Colfax, or even make the race a close one—the men do not live in America But they might have put a candidate in the field who would have received a far larger vote than Seymour and Blair Seymour started out in opposition to Lincoln's Administration by howling for "a more vigorous prosecution of the war," but he soon drafted into Copperheadism of the rankest kind, and since he acquiesced the riots of the New York draft, he has been a [illegible] Blair is known [illegible] a bawling [illegible] an unmitigated [illegible] and a malignant sore head, an unmitigated [illegible] and a "political general" who [illegible] office—Major General in the Army and member of Congress, and drew pay for both at the same time, in direct violation of the Constitution and established usages of the country But the mere fact that he is one of the "Blair Family," is sufficient to condemn him "Blair Family" is a synonym for "total depravity" The American people of all parties, Democrats as well as Republicans, have learned to loathe and despise the "Blair Family," from "Old Blair" down to his mischief-making "cub" Frank Blair"

A USEFUL SUM.—The following has often been published, but it is difficult for some whose business is not with figures to retain the *modus operandi*, therefore we publish it again, and ask those who but seldom have an occasion to make a similar computation, to cut this out and paste it in their hat

To find the price of greenbacks or coin, when the price of one is known, write down 10,000 and divide by the price you know, and the quotient will be the number you *want* to know

Example—Suppose greenbacks are worth 75 cents, how much will $1 in coin cost me if I pay in paper money? 75)10,0000($1 33⅓ is the amount.

75	
250	If you know what a gold dollar is worth it paid for in paper money, and want to find out how much you must pay in coin for a paper dollar, just take the dollar and cents for a divisor, the quotient will be in cents, and just the correct sum necessary to buy a paper dollar
